Summer Garden Events

In partnership with our exclusive luxury event caterer  bovingdons

Discover the perfect summer venue

With a recent £5.5 million restoration, our Grade II* London landmark venue shines brighter than ever. Our awards, including Gold Eco Church and Bronze for Best New Venue at the London Venue & Catering Awards, speak to our excellence.

The stunning garden space, rare in central London and winner of the London in Bloom Gold Award adds an unforgettable touch for an outdoor occasion. Whether you're hosting a canapé reception or looking for a full garden hire with a barbeque, our team are ready to bring your summer soirée to life.

When you host your event, you're not just choosing a venue – you're preserving history and supporting the community.

Sustainability in the heart of London

Eric Parry Architects combines history with a savvy modernity, in a design that aims to achieve net zero carbon by 2030 thanks to new solar panels, as well as the commencement of works for the installation of air source heat pumps – mixing religious with minimalist architecture as well as sustainable architecture.

Here are a few more examples of sustainable practices at 73 Waterloo:

- Staff waiters uniforms made from recycled plastic bottles
- More plant-based food options
- Food is sourced locally and seasonally
- All food waste donated to food banks
